Hi, I'm  
**AGENT  
ARDON**

I help Cadets complete  
the Secret Agent Society  
Small Group Program.

After completing a months-long program of Cadet Club Meetings and real-life practice missions, your child will graduate as a 'Secret Agent' with the social and emotional tools they need to be resilient in the real world.

By learning secret codes and collecting digital gadgets to use at home, school and play, your child will learn to:

- ✓ Decode how they and others feel and act
- ✓ Build their own formula for friendships
- ✓ Cope with change
- ✓ Solve social and emotional problems
- ✓ Recognise and deal with bullying

## WHAT IS SECRET AGENT SOCIETY?

The award-winning and evidence-based SAS Small Group Program has been improving the lives of 8-12 year olds around the world for more than a decade.

Starting as 'Cadets', children join regular club meetings with trained SAS Facilitators where they learn codes and tools designed to build their social-emotional resilience.

Paired with 'secret agent' missions at home and school, the program focuses on diversifying four key life skills:

- **Emotion Recognition** in themselves and others around them
- **Emotion Regulation** focus on anxiety and anger
- **Problem Solving** social-emotional situations
- **Social skills** for friendship, team work and interacting with others.

All the program resources are all accessed via the specially-designed SAS online platform. It includes a Mentor Portal for parents and teachers plus the child's SAS Digital HQ, Mission Journal, Skill Tracker and more.

Cadet Club Meetings and Parent Group Meetings are also joined through the SAS online platform, allowing for meetings to be held face-to-face, via Telehealth, or a combination of both.

SAS Facilitators have completed intensive training in how to provide the SAS Small Group Program.

Ask to see their SAS Training Certificate today!

## CAREGIVERS AND SCHOOLS ARE AN INTEGRAL PART OF THE SAS SMALL GROUP PROGRAM.

The child's adult support network play a critical role in coaching Cadets as they develop and practise their newly-learned skills. This level of support and practice at home and school is one of the reasons why SAS is so successful.

## HOW CAN SECRET AGENT SOCIETY HELP MY CHILD?

The SAS Small Group Program prepares your child for life's social and emotional challenges in a fun and effective way. By capturing children's attention through spy-themed gamified learning, SAS will help your child reach their social and emotional goals.

## PREPARE YOUR CHILD FOR LIFE'S SOCIAL AND EMOTIONAL CHALLENGES IN A FUN AND EFFECTIVE WAY.

Multiple research studies support the effectiveness of SAS when led by trained professionals in clinic, school and telehealth settings. Over 19 publications including four Randomised Controlled Trials (RCTs) explore the use of SAS for children with social and emotional goals including children diagnosed with Autism, ADHD, and Anxiety.
